Message from our Shane R. - District Committee Member

Greetings District 5,

I was in the middle of writing a lecture about the importance of service work, based entirely in my lack of faith (FEAR) that the webmaster position would get filled at the end of this rotation, when a current GSR sent me a text stating he is planning to take the position at the beginning of the year. So now I'm thinking about fear, faith, trusting the process, and how trying to exert control to manage situations usually doesn't work out well for me. I know I've heard this all before and some day I hope to remember it so that I can put it to practical use in my daily living!

I am excited to be rotating out of the DCM role - not because I don't like what I'm doing, but because it is the next thing ahead of me and I'm excited to see the new group of AA members who will continue providing general services for the district. I know I plan to continue being involved in general service but am uncertain how all of that will shake out yet. Unknowns used to scare me but today I'm leaning into it. I know I'm willing and I'm capable so there is nothing to worry about.

Concept IX "Good service leaders, together with sound and appropriate methods of choosing them, are at all levels indispensable for our future functioning and safety. The primary world service leadership once exercised by the founders of A.A. must necessarily be assumed by the Trustees of the General Service Board of Alcoholics Anonymous."

know I mention Chuck S a lot, but I really miss him. Last night I was in Minneapolis for a concert with some friends. We walked out of the parking garage and didn't know which way to start walking. Someone commented how the GPS couldn't give us a direction until it knew which way we were walking. In one of Chuck's talks he compared that to how recovery works for us. We just need to start moving and trust that the directions and guidance will come. I am someone who wants the map laid out before I start moving so that I can avoid missteps and obstacles. I'm afraid that a misstep or obstacle is "bad." But sometimes these things are just a part of the process. I can't always know what lies ahead. I just need to start taking action and keep moving.

Step 9: "Made amends to such people wherever possible, except when to do so would injure them or others."

Step 9 Article - David G.

My experience with this step has been varied. That is why today I know how important it is to work with a sponsor.

Very early in sobriety after reading the steps off the wall, I had my chance to make amends with my wife who had been estranged. There was no sponsor in my recovery at the time, and I hadn't worked any step properly. Needless to say, it caused more harm.

When I eventually got a sponsor and properly worked the preceding 8 steps, fear entered again and it took **plenty of prayer and sponsor direction** to continue with my amends. I was able to separate the list into three categories. The ones I'm willing to do 'right away', the 'maybe' someday list, and the I will 'never' have the courage to do.

As I started making the 'right away' amends there was a certain momentum building. Eventually I tackled a couple of the 'maybe amends', I began to see things differently...How can I make it right wasn't that difficult. The satisfaction and relief I had experienced helped me take another look at the 'never' list. After a while there was only one amend yet to make. I knew I would see my sponsor at our Homegroup meeting & I knew he would ask if I finished the amends.

With the courage that came from a power greater then me, I was able to go to this business and admit I had stolen from them. With a certified check in hand I told them I was a sober member of Alcoholics Anonymous and if I don't pay this back I may have to drink again, and I don't want to drink again!

The man was amazed and said he had never witnessed such a thing. He invited me to come back anytime I wanted.

So this proves to me, the fear that kept me from following through with this amend was all in my head.

A couple of years ago, I had another disturbing experience where I was not at my best. A business owner called me to ask about something that had happened. As I As I was telling him a lie, I realized what I was doing but stuck to my story. Later when I tried to call back to say I had lied to him, the phone was busy. I knew the business closed at noon on Saturday and if I was not able to get through, I would have to sit with the lie on my conscience all weekend. This was a potent lesson for me to learn. I was relieved to finally set it straight, but came way too close to having to sit with this lie throughout the weekend.

These days, I do my best to continue to keep up my spiritual condition, or this alcoholic begins to back side and so do the promises.

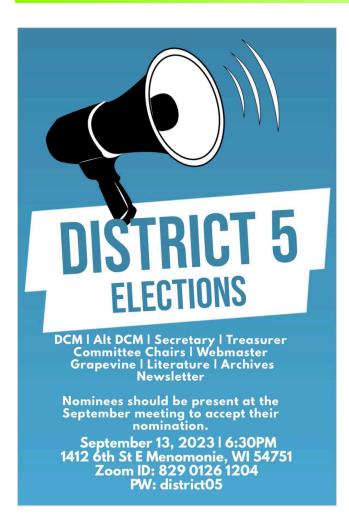

Continue is the most important word in the 12 steps.
